2022 3rd-5th Grade CMAS Testing

CMAS testing wraps up next week with 3rd grade Math and 5th grade Science. We will also be completing make-up testing for students who have been absent during testing dates. CMAS (Colorado Measure of Academic Success) is the state mandated assessment that we implement on an annual basis. Students in grades 3-5 are tested on their proficiencies in Math and English Language Arts. Our 5th graders are also tested on their Science proficiencies.

Our students have been working very hard in their classes learning and growing and we are excited for them to show what they know! **To ensure that your child can test with their class, please make note of the dates and times below. We ask that you do your best to make sure your student is on time to school and that you avoid scheduling appointments on these days so that students are able to test on time in their classrooms.**

Week	Grade	Time	Test
April 19-21	3	8:30-10:00	Math (65 min)
April 19-21	5	10:30-12:15	Science (80 min)
