Stober Elementary
PIE Meeting Minutes
Wednesday, December 11, 2019

Welcome and Agenda:
- Introductions, recorder, time-keeper
- Celebrations

Giving Tree:
- All tags are gone. We are supporting about 20 families this year. Down a little bit from last year, so we are able to provide a little more to the families.

Parent Information Night/Round 1 Enroll Jeffco:
- Great turnout for the parent information night, about 60-80 people. Had a better turn out because we advertised in the local papers and handed out flyers to the surrounding preschools.
- We always left it up to the kindergarten teachers to plan and host the kindergarten information night, but this year we included all teachers and included all families new to Stober. Because, we are not just informing the new parents on kindergarten, but the whole school, therefore all teachers were involved and informed the parents in math, social emotional learning, design thinking, etc.
- Choice Enrollment, round 1 is now open and our numbers are looking good.

Spending Priority/DAC Survey:
- Our priorities last year for this year were a full time Social Worker, we went to a half time DTL and half time Coach and added a half time interventionist. We cut back on the para budget and copy budget. PTA has always provided us with funds for technology.
- The survey helps us make the right budgeting decisions. What are our 1\textsuperscript{st}, 2\textsuperscript{nd}, 3\textsuperscript{rd} priorities? The family committee members voiced that #1 is class size, #2 interventionist, #3 mental health.

Bond Building Improvement Committee:
- The current plan is in Anne’s office, feel free to come see it. We are continuing to meet and discuss the plans, it includes: Boiler, mechanical, electrical, security vestibule, elevator, paint/carpet, windows, kitchen improvements, playground, lighting, gym floor. The committee is made up of three Stober parents, the principal, a community member, three teachers, the facility manager and some district facilities personnel.
- We are just getting started with discussions, improvements will start this summer.

Meeting Adjourned at 7:05 p.m., next meeting date is February 12, 2020,
